2MP STARLIGHT HD 130' IR MINI TURRET CAMERA

Small but mighty HD-TVI camera delivers zero latency HD video over coax cable

The Alibi 2MP HD 130' IR mini turret dome security camera may be small, but it still packs a punch with its 2MP High-Performance CMOS producing HD-quality video.

The camera's 2.8 mm wide angle lens covers a wide area with an 103.5° FOV (Field of View). You can also keep your existing cables and upgrade your cameras with minimal effort with HD-TVI's zero latency HD video and long-distance transmission over twisted-pair and coax cable or similar.

Smart IR technology allows this camera to reduce overexposure of the IR LEDs at the center of the image and capture images up to 65' in the dark without washing out the subject at closer ranges. As a 24/7 surveillance solution, this camera also has features such as True Day/Night and 120dB Wide Dynamic Range (WDR).

When it comes to night time surveillance, or any low-light applications, you can rely on the camera's cutting-edge Full Frame Illumination technology to reduce overexposure of the IR LEDs at the center of the image, increase illuminant efficiency up to 30%, produce LED light in rectangle form to better fit screen size, and capture images up to 130' in the dark without washing out the subject at closer ranges. It also has True Day/Night feature that allows it to capture better images both day and night.

With an IP67 weather-rated enclosure, the camera has an operating rating of -40° to 140°F and is protected from other outdoor elements such as dust and sand, which makes it an ideal outdoor solution.
