2.0 MEGAPIXEL STARLIGHT HD 130' IR WDR OUTDOOR VARIFOCAL BULLET SECURITY CAMERA

Full Frame Illumination with Smart Long-Range IR technology helps you see better and further in the dark

For an excellent 24/7 surveillance solution, this Alibi 2.0 Megapixel HD 130' IR varifocal bullet security camera with 2.0 MP High-Performance CMOS that delivers 1080p HD video is the one for you.

Smart Long-Range IR enables this camera to reduce overexposure of the IR LEDs at the center of the image and capture images up to an incredible 130' in the dark without washing out the subject at closer ranges.

True Day/Night, 3D Digital Noise Reduction (3D DNR), and Wide Dynamic Range (WDR) of 120 dB round out the features that make this camera ideal for round-the-clock surveillance.

With HD-TVI's ability to deliver zero latency HD video and long-distance transmission over twisted-pair and coax cable or similar, you can keep your existing cables and upgrade your cameras with minimal effort.

A motorized zoom 2.8-12mm lens provides you with the ability to remotely change the Field of Vision (FOV) without having to adjust it at the camera manually. Up the Coax (UTC) technology enables you to control the camera's onscreen display (OSD) and zoom levels from your web browser, digital video recorder interface such as the Alibi Central Management System, or smart phone app.

Because it's an outdoor camera, it has a temperature rating of -40° to 140°F, and the IP67 weather-rated enclosure ensures the camera operates without disruption in extreme weather conditions, including protection from particles such as dust and sand.
